The Chairperson, Examination Committee
Birla Institute of Technology Mesra
Ranchi, Jharkhand

Dear Madam/Sir

A meeting was held with the team members of IQAC in connection with the issues related to PhD thesis evaluation and introduction of Blooms level and Course outcomes in the question paper.

Please find enclosed the MoM for consideration and for necessary further action from your side for possible implementation.

Yours sincerely

(Dr. Sandip Dutta)

Director IQAC
BIT Mesra

Internal Quality Assurance Cell, BIT Mesra

Minutes of the Meeting

A meeting of IQAC members was held on 8th Jan 2018, to deliberate on the issues of examination reforms of the institute for improving on the quality aspects as well as accreditation. The following points were suggested by the members for possible incorporation in the Exam rules and regulations.

- 1) Efforts should be taken to speed up the PhD evaluation process without compromising the quality aspect.
- 2) Remuneration amount for the UG, PG, PhD (Foreign/Indian) examiners should be as per the current practices of the peer institutes.
- 3) In order to attain the course outcomes (COs) and to evaluate the standard of question papers, it is necessary to have CO's and the corresponding Blooms level attributed to each of the questions of the question paper. Hence it is suggested to adopt the practice in all forms of question paper preparation.
